GTA Realtors® Release September 2026 Stats

TORONTO, ONTARIO, October 6, 2026 – Homebuyers were in a holding pattern in September, as uncertainty surrounding the economy, inflation and borrowing costs weighed on Greater Toronto Area (GTA) home sales.

GTA REALTORS® reported 5,040 home sales through TRREB’s MLS® System in September 2026 – down nine per cent compared to September 2025. New listings entered into the MLS® System amounted to 16,500 – down by 14.4 per cent year-over-year.

On a seasonally adjusted basis, September 2026 home sales and new listings were down month-over-month compared to August 2026.

“Housing is one of the biggest issues on voters’ minds, and the upcoming municipal election will help shape housing policy across the GTA and Simcoe County for the next four years. The decisions our next mayors and councillors make on affordability, housing supply and the costs associated with buying a home can also influence buyer demand and confidence in the market,” said Toronto Regional Real Estate Board (TRREB) President Daniel Steinfeld.

The MLS® Home Price Index (MLS® HPI) Composite benchmark was down by 4.7 per cent year-over-year in September 2026. The average selling price, at \$1,006,409, was down by 5.1 per cent. On a seasonally adjusted basis, both the MLS® HPI Composite and average selling price edged lower month-over-month compared to August 2026.

“We know there is substantial pent-up demand in the GTA, with many households fully intending on purchasing a home in the months ahead. These would-be homebuyers want to take advantage of today’s more affordable housing market, but they need to be confident that their employment situation will remain solid and inflation will not put pressure on borrowing costs over the long term,” said TRREB Chief Information Officer Jason Mercer.

“Governments must make homeownership more attainable by reducing barriers such as Toronto’s Municipal Land Transfer Tax and opposing its expansion across the GTA and Simcoe County,” said TRREB CEO John DiMichele. “With trade uncertainty and tariffs continuing to affect Canada’s economy, maintaining a strong housing sector is critical to supporting consumer confidence, economic growth, and the significant spin-off spending generated by every MLS® transaction,” continued DiMichele.

Notes

- 1. Sales, dollar volume, average sale prices and median sale prices are based on firm transactions entered into the TRREB MLS® System between the first and last day of the month/period being reported.
- 2. New listings entered into the TRREB MLS® System between the first and last day of the month/period being reported.
- 3. Active listings at the end of the last day of the month/period being reported.
- 4. Ratio of the average selling price to the average listing price for firm transactions entered into the TRREB MLS® System between the first and last day of the month/period being reported.
- 5. Average Listing Days on Market (Avg. LDOM) refers to the average number of days sold listings were on the market. Average Property Days on Market (Avg. PDOM) refers to the average number of days a property was on the market before selling, irrespective of whether the property was listed more than once by the same combination of seller and brokerage during the original listing contract period.
- 6. Active Listings at the end of the last day of the month/period being reported.
- 7. Past monthly and year-to-date figures are revised on a monthly basis.
- 8. SNLR = Sales-to-New-Listings Ratio. Calculated using a 12 month moving average (sales/new listings).
- 9. Mos. Inv. = Months of Inventory. Calculated using a 12 month moving average (active listings/sales).
- 10. "Bradford West Gwillimbury" is referred to as "Bradford" and "Whitchurch-Stouffville" is referred to as "Stouffville" in the report.
